Honored Justices of the Supreme Court of the United States  
Honored Members of the United States Congress,

On behalf of millions of evangelical Christians in America, we thank you for standing strong in your respect for the Constitution, clearly reflected in Justice Alito's draft of *Dobbs vs. Jackson*.

It is a tragedy and scourge to look back at fifty years and 63,000,000 missing children – the equivalence of an entire generation of Americans – all based on anti-human 'power organizing' and a faulty Supreme Court decision. Short of heaven, we can never have those children back, but *now* is the time to reclaim the right and righteous side of history. God can heal our land.

Most women and men, of course, want to love and raise their children. Thousands of Christians volunteer in help ministries for struggling women and families. Children are a blessing from the Lord and the hope of our future. Children are created equal, with intrinsic value. Children also draw forth maturity and joy, in most adults.

We pray that you endure the well-paid grievance industry, sometimes called "crisis actors," and others 'leaking' private and sacred documents, those harassing you in your homes and in media. You must know by now that this same lack of shame will stop at nothing to kill children and destroy the nuclear family. America should not cater to lawlessness, but honor the rule of law that, we can hope, reflects the laws and wisdom of God that yield love and life.

Funding of this grievance industry leads to a few deep pockets, via a shell game and Engine of non-profits that collaborate to weaken America. They advance the abortion industry, open borders, election fraud schemes, racial tension, recasting our nation's history, destroying our monuments and system of education, drug and "sex work" legalization, threatening our national sovereignty, and much more harm.

Non-profit and media leaders, including curious "faith leaders," tend to know one another and collaborate. It's their "job" to hurt America and other nations, and to demonize patriotic Christians as "Christian nationalists." This gives their funders more power over America and other nations. Our demoralized cultural weakness leaves funders with more power. It's always about power. We urge you to read the book on George Soros, *Man Behind the Curtain*, by Matt Palumbo. And please read *Red-Handed*, by Peter Schweitzer.

We have had more than enough death and destruction in, and of, our beloved nation. A nation once for children, now funding abortion and non-life-giving sexuality around the world. How the Lord must grieve to see what he once inspired, but he is always willing to breathe new life and revival when our leaders trust and obey his path of life.

“Be strong and courageous, for the Lord your God is with you.” Joshua 1:9
